Nixon's failure to ask Dean substantive questions, like who did what, who knew what and when, etc. Can mean Nixon knew what Dean knew & doesn't have to — he knew it is the only reason he didn't have to.

And this takes except for Haldeman, Dean alone knew they were all being recorded.

Doesn't explain why no one pressed Nixon for a clear statement (Yes or No)

Nixon & Dean only dreamed up a cover story in every thing

But Dean already in other hands — at least 4 days

Effort to relate Watergate & Cover up? Dean up to part ways?

Nixon at both like a person sane?
